CASE STUDY

Klondyke Garden Centres

For Garden Centres, café's are big business. Klondyke were with an internationally recognised coffee brand for 14 year, so they were nervous about a national changeover across 22 sites.

Ringtons executed a seamless 90 machines install and full café supply switch in 2022. Now, with our full support, coffee sales continue to rise across the group.

"I can't emphasise enough how stress free our multi-site installation has been thanks to Ringtons."

Peter Farrell - Regional Manager at Klondyke

Award Winning Tea

FROM THE WORLDS FINEST TEA ESTATES AND SEALED FOR FRESHNESS

Tea is at the heart of Ringtons. Our business was founded in 1907 on the promise of bring quality tea to our local community with care and attention. This still powers the business today.

Ringtons Tea is picked with care from Tea Estates in Africa and Asia, and our LeafLock™ technology seals in

freshness at origin. Following blending at our factory, all Ringtons tea is foil packed and flushed with nitrogen to preserve the full flavour.

The satisfying taste of Ringtons Tea is all down to how we treat it. From bush to bag to the moment you open the sachet, the utmost care has been taken.

Give them Gold

Be proud to give your customers Ringtons Gold, our superior black tea blend.

With more tea per bag than other brands, you get a smoother, fuller brew.

Find your tea

From classic black teas, to tag and envelopes to unique herbal blends. There's a tea for every taste.
