The Winter Collection

Seasonal drinks to warm your menu.

When the days get shorter and the air turns crisp, a great winter menu does more than keep people warm - it makes them feel something.

It's the comfort of a familiar flavour. The smell of spice in the air. The first sip that says *you've earned this*.

This season, we've brought together four drinks that celebrate that feeling. Each one blends familiarity with a little surprise - festive flavours, thoughtful twists and ingredients that feel just that bit special. From the nostalgic sweetness of mince pie to the rich calm of coconut hot chocolate, every drink in **The Winter Collection** is designed to bring warmth, comfort and quiet luxury to your menu.

Serve them with care, share them with pride and let your customers take a moment to pause and enjoy the season.

If there's anything you need, we're just a call away.

And of course, a huge thank you to our friends at Sweetbird for helping us make this collection something special.

Fruit and Nut Latte

Smooth hazelnut meets the gentle spice of mince pie in this comforting, nostalgic blend. Indulgent yet understated, it's a signature winter serve that evokes warmth, elegance and quiet festive luxury.

Add to your next order:

**Sweetbird
Mince Pie Syrup**
425-04-836

**Sweetbird
Hazelnut Syrup**
425-04-807

Allergen Free

Suggested recipe

1. Add one pump Sweetbird Mince Pie Syrup and one pump Sweetbird Hazelnut Syrup to your preferred cup.
2. Add a double espresso.
3. Top with steamed milk.
4. Finish with a dusting of cinnamon or grated nutmeg.

Make it your own

- The Mince Pie syrup also shines beautifully on its own - a simple Mince Pie Latte is festive enough to stand solo.
- Or go a step further: add a sprinkle of crushed hazelnut or serve with a mini mince pie for a touch of theatre.

Mixed Berry Soothie

A vibrant twist for winter. This warm berry blend offers uplifting flavour and natural brightness – light, vegan-friendly and effortlessly sophisticated. Perfect for those seeking energy and comfort in equal measure.

Suggested recipe

1. Pour one part* Sweetbird Mixed Berry Smoothie into a cup or mug.
2. Add three parts hot water.
3. Stir gently until smooth and warmed through.

*We'd recommend 50ml - but feel free to play around and make it your own.

Add to your next order:

**Sweetbird
Mixed Berry
Smoothie**
425-04-879

Make it your own

- Market it as a 'Warm Berry Infusion' or 'Berry Tonic' to give it a little intrigue.
- Try serving in a clear glass to show off the deep ruby colour – it looks as good as it tastes.
- Finish with a slice of orange or a few frozen berries for a fresh, premium touch.

Gingerbread Defence Tea

A soothing infusion of Ringtons Defence Tea and classic gingerbread spice. Calming, restorative and delicately festive – a refined choice for those who favour subtle warmth over sweetness.

Suggested recipe

1. Brew a Ringtons Defence Tea bag in hot water for three to four minutes.
2. Add one pump of Sweetbird Gingerbread Syrup.
3. Stir gently and serve.

Add to your next order:

**Sweetbird
Gingerbread Syrup**
425-04-806

**Ringtons
Defence Tea**
410-01-032

Make it your own

- Top with a thin slice of orange or a stick of cinnamon to add aroma and visual appeal.
- This one works beautifully across all times of the day - morning pick-me-up, afternoon comfort, or even a caffeine-free evening option.

Snowball Hot Chocolate

Rich chocolate and creamy coconut combine in this elegant reimagining of a winter classic. Silky and deeply comforting – a contemporary indulgence with timeless appeal.

Add to your next order:

**Ringtons
Premium Instant
Hot Chocolate**
425-04-035

**Sweetbird
Coconut Syrup**
425-04-813

Make it vegan:

**Ringtons
Vegan Instant
Hot Chocolate**
425-04-377

Suggested recipe

1. Add one scoop Ringtons Hot Chocolate and one pump Sweetbird Coconut Syrup into a mug.
2. Mix into a smooth paste with a splash of hot water.*
3. Top up with steamed coconut milk and stir gently.
4. Finish with whipped cream, shredded coconut or white chocolate flakes if you like things fancy.

*We'd recommend a mini whisk for this!

Make it your own

- You can theme it however you like - add a dusting of cinnamon or a hint of nutmeg to create a cosy, winter-inspired version of the classic Snowball.
- You can switch to Ringtons Vegan Hot Chocolate and plant-based milk for a completely dairy-free option or this recipe is just as delicious made with regular milk!

Securing the future of coffee

Ringtons and World Coffee Research

By Sadie Walton

Every cup of Ringtons coffee connects you to a much bigger story - one about farmers, science, and protecting coffee for the future.

WHY IT MATTERS

Coffee is one of the most climate-sensitive crops in the world. Rising temperatures, drought, and new plant diseases are already making it harder for farmers to grow the beans we love. Without action, millions of livelihoods - and the future of coffee itself - are at risk.

That's why Ringtons is working hard to make our coffee supply chain climate resilient - protecting the future of coffee, not just for today's customers, but for generations to come.

OUR PARTNERSHIP WITH WORLD COFFEE RESEARCH

We're proud to be long-standing partners of World Coffee Research (WCR) - a global non-profit driving scientific innovation to secure the future of coffee.

Image descriptions:

1. WCR Research farm, El Salvador.
2. Karenge research farm in Rwanda.

Through WCR's groundbreaking agricultural research, new coffee varieties are being developed that can better withstand heat, drought, and disease - helping farmers keep producing top-quality coffee even as conditions change.

By supporting WCR's network of field trials and breeding programmes, Ringtons helps ensure that farmers around the world - especially in vulnerable regions - have access to the tools, knowledge, and plants they need to adapt and thrive.

HOW WE SUPPORT THE WORK

Ringtons has been a proud Check-Off Member of WCR since 2019. This means that for every kilogram of green coffee we buy, 1p goes directly to fund WCR's research. Even better - our supply partners match our contribution, doubling the impact.

Our team has visited WCR's research farm in El Salvador, where we've seen their work in action and tasted exciting new F1 hybrid varieties being developed for future use. These new plants could become key to keeping high-quality coffee available for everyone, everywhere.

TACKLING DEFORESTATION

Our commitment to sustainability doesn't stop there. As of summer 2025, over 90% of Ringtons coffee comes from deforestation-free value chains, and we're aiming for 100% by summer 2026.

Even though the upcoming EU Deforestation Regulation doesn't apply to UK roasters, we've chosen to meet its standards anyway - because protecting forests means protecting the planet we all share.

Closer to home, we've also launched the Ringtons Environment Trust, partnering with the Northumberland Wildlife Trust to rewild and restore forestry areas right here in the North East.

THANK YOU

When you serve Ringtons coffee, you're not just pouring a great cup - you're helping protect the future of coffee farming itself.

Every bean you brew contributes to vital research, supports farming communities, and helps build climate resilience from seed to cup.

Together, we're future-proofing the world's coffee - and that's something worth raising a cup to.
