# The Spring Collection

## Seasonal drinks for your menu.

Spring is when drinks start to feel lighter, brighter and more uplifting. The heavy winter flavours fade away and people begin to look for something that feels refreshing, comforting and just a little bit better for them too.

Our Spring Drinks Menu is built around that moment - offering two simple ways to feel good. You can choose something light, fruity and energising, or something warm, sweet and comforting. Either way, every drink is easy to love and easy to make.

If you're in the mood for something fresh and revitalising, our Fruit Fusions and Digest Tea are designed to gently lift you without the heaviness of coffee. The Apple & Rhubarb and Mango & Passionfruit drinks are bright, juicy and naturally refreshing, made with Sweetbird Fusions+ Syrups that contain added vitamins/caffeine for an energy boost. They're low in calories and full of flavour - perfect for a mid-morning lift or an afternoon pick-me-up.

For something a little calmer, Ringtons Digest Tea offers a soothing pause. Blended with peppermint, spearmint, liquorice root and ginger, and enriched with zinc to support normal digestion, it's a gentle, warming drink that feels just right after a meal or whenever you want to reset.

And for those moments when you want something indulgent, our Cinnabun drinks bring pure comfort. Inspired by the much-loved cinnamon bun, this flavour delivers soft sweetness and warm spice in a way that feels nostalgic, cosy and deeply satisfying - whether served hot or iced.
